

**Where
Technology
meets logistics**

ABOUT US

Tracing back to the 90s, the company set its roots as a family enterprise. Automobile Carriers, a third-generation logistics pioneer, has developed into a statewide network of over hundreds of workers scattered across India.

We are an ISO-certified company and an award-winning logistics service provider with a 100% owned fleet of over 600 vehicles and offer specialized solution spanning the entire supply chain with services like warehousing, stockyard management, end-to-end logistics to the various industries.

We understand our clients' demands and provide a rapid, reliable, and high-quality logistic and transportation solution to satisfy their expectations every time. We value consistency and dependability, and understand that happy customers are essential to our success. Our only goal is to assist our associates in satisfying their consumers, for which we are willing to go the extra mile and provide efficient solutions.

"We can help you take care of any of your logistics requirement and would be grateful if you provide us the opportunity to assist you in achieving your business ambitions."

MISSION

Guided by relentless focus, we will constantly strive to position ourselves as a leading logistics and transportation service provider. If we can satisfy our customers with the cutting-edge technology and absolute service, we can expand into other service categories beyond our current offerings as well.

VISION

Our vision is to make every experience extraordinary for our clients by integrating technology and smart transport system with business intelligence, integrity and professionalism. We also strive to reduce our carbon impact by increasing output at all levels.

WHAT WE DO ?

Fast, reliable, and qualitative. That's how our logistics and transportation solutions are. We also understand our clients' needs to meet and strive to exceed their expectations every single time

WAREHOUSE &

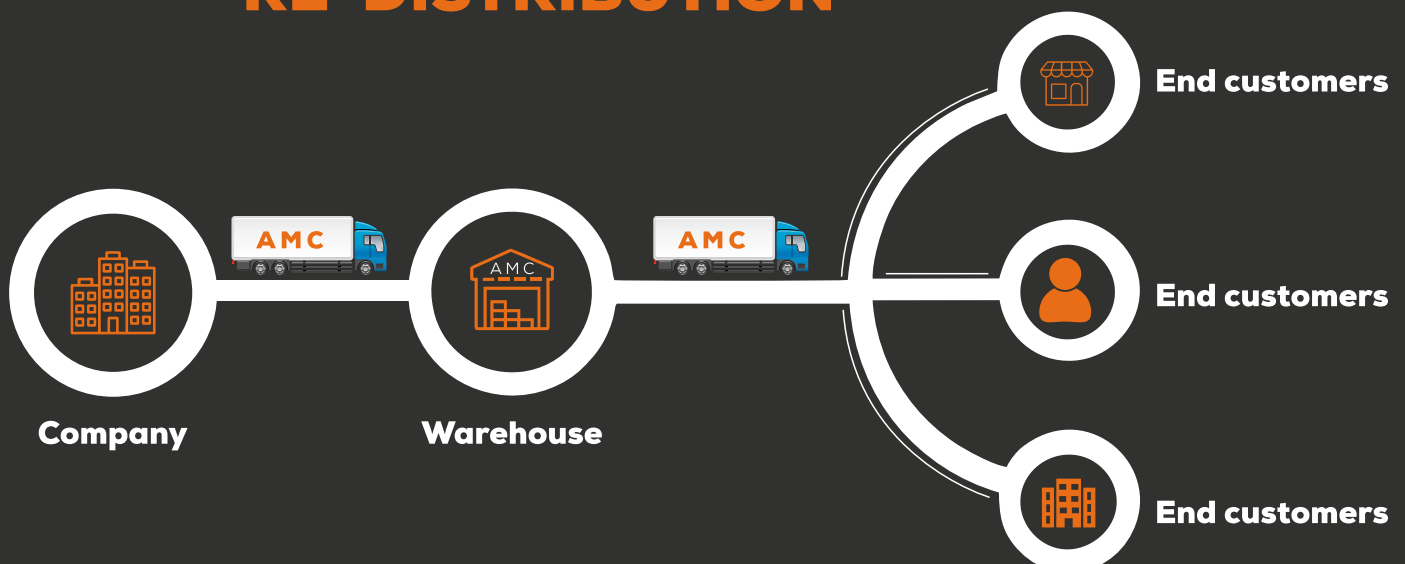

STOCKYARD MANAGEMENT

We work with a variety of storage choices to optimise resources for businesses of all sizes. Automobile Carriers' warehouse and storage facilities are strategically positioned near major train stations and highways across the various states. This enables us to handle large or small contracts and fulfil our commitments without fail. All of our sites are purpose-built with the most up-to-date security systems in place 24 hours a day, seven days a week. We handle everything from warehouse storage to warehouse upkeep to reaching out to distributors. Whether you need to keep a modest number of pallets for a short period of time or set up a global warehousing strategy, we can help.

We are currently managing over 6 lakh + sq. ft of warehouses and stockyard for various multinational clients like Honda 2wheelers, Exide Industries Limited, Escorts India to name a few at various location across India and handle more than

DISTRIBUTION AND RE-DISTRIBUTION
